ST. LAWRENCE HALL, MONTREAL, CANADA

HENRY HOGAN,

PROPRIETOR.

FOR the past 37 years this HOTEL, familiarly known as the "ST. LAWRENCE," has been a household word to all Travellers on the Continent of North America, and has been patronized by all the ROYAL and NOBIL persons who have visited the City of Montreal.

This Hotel, including the entire block, which is admirably situated, being in the very heart of the City and contiguous to the General Post Office, Public Buildings and other places of interest and of Business, has recently been acquired by Mr. Henry Hogan, the former proprietor, who has handsomely and appropriately decorated and renovated the interior, and completely refitted the whole of the apartments with new furniture, comprising 100 new rooms, making the present number of apartments 250.

A new and elegant Passenger Elevator has also been added, and the Halls and Public Rooms are lighted by the Electric and incandescent lights, making it the most attractively lighted Hotel in the Dominion. The Hotel is managed by Mr. Samuel Montgomery, under the immediate personal supervision of Mr. Hogan, that whom no one is better qualified to conduct an hostelry of such magnitude as the ST. LAWRENCE HALL, and that whom no one has a better reputation as an obliging, generous and considerate host. Hotel Coaches are in attendance on arrival of all Trains and Steamers. All Baggage Checks should be given to the Porter in attendance.

PREFACE.

The Publishers have much pleasure in submitting herewith the annual edition of their Victoria City Directory. Great care has been taken in compiling and revising the Directory, which, we trust, will meet with the approbation of our subscribers.

Special attention is called to our Street Directory, it being the first one ever published of the City of Victoria.

Telephone numbers are placed after the names.

Every effort has been made to secure the christian names in full, which we believe will be of advantage.

We also desire to announce that the Directory of the City of Victoria for 1890 contains **2005** names *over that of last year*, being an increase in population of **5241**, as estimated by the following tables :

In 1889

Victoria had 3559 names, multiplied by $3\frac{1}{2}$	12,457
Floating population and Chinese.....	2,500

Estimated population.....	14,957
---------------------------	--------

In 1890

Victoria has 5566 names, multiplied by 3... ..	16,698
Floating population and Chinese.....	3,500

Estimated population.....	20,198
---------------------------	--------

The names of the residents of Victoria in 1863, published in the Directory for that year, which also appear in the present edition, are given as they then appeared, and will no doubt prove of interest.

Thanking our patrons for their encouragement, courtesy and liberal support, our endeavors will be to merit a continuation of their favor.

L. G. HENDERSON,

Compiler.

VICTORIA, January, 1890.

VICTORIA

STREET DIRECTORY.

THE STREET DIRECTORY is presented in a condensed form and is intended to show the exact location of each house with its occupants, and in places of business who compose the firm and the employees.

Fuller information will be found in the ALPHABETICAL DIRECTORY.

A * before a name indicates a separate house without a number, when there is a * and a number, that there is no number on the house.

THE COLONIST.

ESTABLISHED 1858.

ELLIS & CO.,

PROPRIETORS,

VICTORIA, = B. C.

The oldest and most influential journal in British Columbia. Having the largest circulation of any paper published in the province. The Colonist affords advertisers the best possible medium through which to reach all classes on the Canadian Pacific Coast.

To intending settlers the Weekly Colonist gives all the information needed.

Daily Colonist, 1 year \$10.00.

Weekly " 1 " \$ 2.00.

Sample copies free.

VICTORIA TIMES.

The Leading Paper of
British Columbia.

***LARGEST Circulation and BEST Advertising
Medium West of WINNIPEG.***

The Times is the People's Paper. The Daily goes into every house in Victoria, and circulates very largely in the other cities in British Columbia. The Weekly is read by every resident of the Province, and has hundreds of regular subscribers in Eastern Canada, the United States, and Great Britain. To reach the people of the Northwest, there is no other advertising medium that offers so many inducements.

Daily Times, \$10 per year.

BY MAIL.

Weekly Times, \$2 per year.

THE TIMES PRINTING & PUBLISHING CO.

WM. TEMPLEMAN, Managing Editor.

CANADIAN PACIFIC Navigation Company.

(LIMITED LIABILITY.)

INCORPORATED 1888.

This Company is engaged in the transportation of freight and passengers over the following routes in British Columbia, making regular trips as noted, with the following well-equipped, fast and commodious steamers, viz.:

"ISLANDER,"**"PREMIER,"****"YOSEMITE,"****"PRINCESS LOUISE,"****"MAUDE,"****"SARDONYX,"****"R. P. RITHET,"****"WM. IRVING,"****"WESTERN SLOPE,"**and **"RELIANCE."**

Daily trips to Vancouver, connecting with the Canadian Pacific Railway.

Semi-Weekly trips to New Westminster, connecting with steamers of same line for Hope, Sumas, Chilliwack and way landings on Fraser River.

Semi-Monthly trips to Fort Simpson and intermediate ports on the Northern Coast, which, when inducements are offered, are extended to the different landings in the Queen Charlotte Group of Islands.

Semi-Weekly trips with the fine New Steel Steamer "PREMIER" between Vancouver and Puget Sound ports.

Trips to Barclay Sound, West Coast ports and other points, whenever occasion offers.

MANAGER,

G. A. CARLETON,

GENERAL FREIGHT AGENT.

F. W. VINCENT,

ASST.-MANAGER.

C. S. BAXTER,

GENERAL PASSENGER AGENT.

ILLUMINATE

The Electric Light is, without doubt, destined to be
THE LIGHT OF THE IMMEDIATE FUTURE.

It has proven itself more safe, convenient, cleanly and healthful than other illuminants.

No ignition from match stumps. No oils to explode.

No gas-pipes to blow up. No soiling of goods.

No asphyxiation.

No vitiation of the air of offices or homes. It is strangely suggestive of recovered sunlight.

The secret of success in Electric Lighting centres in the coal pile.

A dollar saved in fuel is a dollar earned in dividends.

THE BALL ELECTRIC LIGHT AND M'F'G CO.

of Toronto claim for their systems the ability to produce more light per horsepower of energy expended than can be produced by any other system known. They guarantee their machinery to outlast other makes, while they are able to sell it at fully one-third less. They supply "arc" and "incandescent" apparatus, or both combined, in any sizes and quantity.

Long distance Incandescent Lighting a specialty. Isolated plants for factories, mills, and machine shops, furnished and set up.

Their 1000-candle power arc lamps are a great success.

Prices and all information on application to their general western representative.

ALPHABETICAL DIRECTORY.

NOTE.—THE FOLLOWING ABBREVIATIONS ARE USED IN THE VANCOUVER DIRECTORY; the word street is omitted after the name of the street; *av* avenue; *nr* near; *cor* corner; V.T.Co., *Victoria Transfer Co.*; V.T. & D. Co., *Victoria Truck and Dray Co.*; C.P.N.Co., *Canadian Pacific Navigation Co.*; A.I.W., *Albion Iron Works Co.*; E. & N. Ry., *Esquimalt and Nanaimo Railway.*

Victoria, the capital of British Columbia, is one of the beautiful cities of the Pacific Coast, and is situated in the southeast part of Vancouver Island, about an irregular indenture from the strait of Juan de Fuca on the South. The city is built on moderately undulating ground, and contains an area of about four square miles. The nearest mainland is about 20 miles distant south to Port Angeles, Wash. The nearest Canadian mainland is about 65 miles northwestward by the main route of travel. Vancouver is 90 miles, San Francisco 750 miles, and Tacoma 127 miles. Vancouver Island extends some 40 miles farther south than the 49th parallel, so it faces U.S. Territory to the South and East.

The Hudson's Bay Company established a trading post at Victoria early in the present century. In 1847 a fort was built there. Five years later the town was platted, and in 1862 it was incorporated. The first vessel arrived from England in 1845. For many years the Hudson's Bay Company practically owned the entire Vancouver island, and whatever industrial operations were engaged in were related in some manner to the company's interests. This condition of affairs prevailed to a considerable extent till about the year 1858, when the Fraser river gold excitement drew throngs of miners to British Columbia. In a few months then Victoria developed into a flourishing city, though but few of the twenty-five or thirty thousand miners who spent the winter in that vicinity remained as permanent residents. Still its real growth began at that time, and it has had a gradual and healthy increase since.

No evidence of growth is more satisfactory than that supplied by the liberal expenditure of capital on new business blocks, handsome private residences, and church edifices.

The population of the city has been increasing steadily. In 1874 there was a population of 4,674; in 1876, 5,293; in 1882, 7,000; in 1884, 12,000; in 1888, 14,000; in 1889, estimating from the number of names in the Directory, 15,000. We shall give an estimate of the present population of the city in our preface.

The city's mercantile, manufacturing and shipping interests have been developed by the support which it commanded as the central trading point of the province. Victoria has always been the chief trading point of the entire British possessions west of the Rocky Mountains, because it was so accessible by water which was the great highway for all commerce.

Until the completion of the Canadian Pacific Railway, Victoria was the only place of importance in British Columbia, now other places are springing up. It could not be expected, with a Province so rich in coal, minerals, lumber and fish, that one city would long remain the only distributing point for so vast and rich a Territory. It is the ocean gateway to the Province, and must ever command and receive a large portion of the interior and coast trade.

Until about five years ago, the chief route for travel or traffic was by way of San Francisco or Portland, so it was no small advantage that Victoria was situated comparatively near these great commercial centres to the south. It is the oldest city in the province, and also the commercial metropolis and social centre. Shipping from all parts of the world enters the harbor, making it an important port of the Pacific seaboard.

Victoria is increasing in size and importance from the force of its own momentum. The larger it grows the more rapid is its advancement. No limit is known to the scope for industrial development on the island, which in three hundred miles in length northwest and southeast, an area of about twelve thousand miles, which territory may be considered as tributary to Victoria, and from the smaller islands of the adjoining waters and from the main land, much business flows to the capital city. The government is administered from here, and if no other reason existed, that alone would have a tendency to draw business. The Victoria custom house shows by far the largest business of any port of the province, and ranks as fifth port of the Dominion. Last year the arrivals and clearances of marine craft numbered over five hundred and sixty, aggregating more than half a million tons burthen, exclusive of those plying to the various ports within the province. The exports for the year, as shown by the Custom House records at Victoria, consisted of gold, coal, fish, furs, hides, lumber and curios, to a total value of \$3,475,968.00, and the imports for the same period aggregated \$2,922,-395.00. The duties collected amounted to \$873,952.26. These figures indicate the large volume of business which is transacted at Victoria.

Bank of British Columbia, Bank of British North America, and Garesche, Green & Co. (private bankers), Canadian Pacific Railway Telegraph, Dominion, Wells, Fargo & Co., and Northern Pacific Express.

Not alone as a growing city of promising prospects does it attain its full importance. The strategic point which it occupies as a national post of observation, supply and defence entitles it to the consideration it receives from Her Majesty's home government.

Esquimalt (virtually a part of Victoria) is esteemed of such importance by the British Government (by whom this station is maintained), that steps are being taken for the erection of strong fortifications in addition to the present means of defence.

Though located on an island, Victoria does not suffer from the lack of outside communication, as that fact might imply. The harbor is generally a lively place, especially during the summer season, for then the ships that do the carrying trade between here and England generally arrive with large cargoes of merchandise of all kinds, for general distribution in the province, and by them are returned those cargoes of Salmon, Lumber and Furs, the principal exports of the Province, and for which she is noted. The SS. "Islander," one of the finest steamers on the Pacific Coast, makes daily trips between Victoria and Vancouver, dist. 90 miles, connecting with the Canadian Pacific Railway, making it the real terminal point of that greatest of transcontinental railways. Daily steamers of the O. R. & N. Co. ply to Port Townsend, Seattle & Tacoma, dis. 127 miles, connecting with the Northern Pacific Railway and the Union Pacific Ry. The Pacific Coast Steamship Co.'s boats call at Victoria direct from San Francisco, dis. 750 miles every five days, carrying the Canadian and U.S. mails. During the fruit season these ships bring the first supply for the province to Victoria, and from here it is distributed. A C. P. N. Co. steamer makes tri-weekly coasting trips to New Westminster, and another monthly steamer for all points up the Northern Coast. The Alaskan steamers of the P. C. SS. Co. make Victoria their clearing port northbound and entry port southbound, there are innumerable local steamers and tugs that ply the waters adjacent to this city.

Esquimalt harbor, about three miles to the westward of Victoria, is the site of the British naval station. It is probably the best one on the shores of Vancouver Island. It being a perfectly land-locked refuge, and naturally easy of access for vessels of the deepest draught, war vessels are stationed there constantly, and it is general headquarters for Her Majesty's navy in the Pacific. Facilities are provided for doing all sorts of repairing for ships. A dry dock 450 feet long and 27 feet deep, with an entrance 55 feet wide, was constructed at a cost of about \$900,000.00. The arsenal contains large quantities of stores and ordnance supplies of all descriptions. The royal navy hospital and cemetery are located there. Quite a town has been built up about the dry dock.

The main thoroughfares are clearly defined for long distances, but in all parts of the City are streets of varying widths, joining each other at every conceivable angle. All but the main business streets are lined with shade trees. The streets and roads are all macadamised and kept in good condition. Victoria is noted for the excellence of her streets and adjoining roads. The city is well lighted with the Arc Electric light. At various points are clusters of these lights on masts 125 feet high, which throw a soft light over the city. Individual lights are also largely used. An electric tramway is in operation on the principal streets. The city owns its own water works system, which cost \$250,000, and is ample for the needs of the city. The Street Electric Lighting plant is also owned and operated by the city.

There is a Gas Works. Also an Electric Light Company, which furnishes the "Ball Electric Arc light," which is being extensively used among the business houses. An efficient paid fire department with the latest improved equipment gives ample fire protection.

Victoria is a city to delight the heart of the tourist. In a drive over any of the excellent roads leading out from the city, the eye rests upon an enchanting landscape, handsome residences with well kept grounds and gardens, and on every side evidences of wealth and culture.

It is a favorite winter resort, not only for the people of British Columbia, but for many south of the line, while in summer it is filled with tourists. No place on the Pacific Coast offers more comfort, better climate or more beautiful scenery; and no city of its size in the Dominion has so many wealthy residents retired from active business.

Beacon Hill Park is the favorite resort. It occupies a large tract of ground in the eastern side of the city, being washed by the waters of the Straits of Juan De Fuca. A slight elevation around which is a race track gives the park its name. The park itself is a rare combination of the beauties of nature and artistic design. Three artificial lakes have been excavated, into the smaller one of which goldfish have been placed. A number of wild animals and birds are in cages or enclosures. Good roads and footpaths enable visitors to go comfortably all over the park. This is a great resort for all kinds of athletic games, and a favorite one with tourists, especially as the outlook from it is most grand, overlooking the broad strait, with the snow-covered Olympian Mountains plainly in view, on the mainland of Washington to the South, and the majestic peaks of the Cascades relieving the landscape to the southeast and east.

The North Arm of the Harbor, which forms a gorge about a mile from the city, is a favorite resort for boating parties.

Esquimalt is also one of the prominent resorts of the vicinity, the Government works and Naval equipments adding to the attractions which the scenery affords. Large numbers of people visit the war vessels that lie at anchor in the harbor.

The city is amply provided with educational facilities, both public and private. There are five Ward Schools, besides the large central and high schools. These public schools are maintained by the Government and controlled by a school board elected by popular suffrage. There is also a Ladies' College (Anglican) and the large St. Ann's Convent, besides 2 primary schools, maintained by churches.

The city has provided a free public library of about ten thousand volumes.

The churches are well represented. They are Christ Church Cathedral (Anglican), and 2 others, St. Andrew's Pro. Cathedral (R. C.), Methodist (2), Presbyterian (2), Baptist (2), Jewish Synagogue and Chinese Joss House.

The Royal Jubilee Hospital is built in the outskirts of the city, at a cost of \$160,000. It is located on a tract of 19 acres of land, on which is a grove of oaks. There is also the St. Joseph's hospital, a private R. C. institution.

The press is represented by 2 dailies,—the "Colonist" (morning), and the "Times" (evening); both papers publish weekly editions. The "Colonist" has extensive job printing, lithographing, engraving and salmon label printing departments. There is also the "Weekly Victorian" and the "British Columbia Real Estate and Mining Journal" (monthly).

The Esquimalt & Nanaimo Railway is the only road having a track into the city. Construction was begun in October, 1884, and the road was completed in August, 1886. This line extends up the Eastern Coast of the Island, a distance of some 70 miles to the city of Nanaimo, or rather to Wellington, when the celebrated Wellington coal is mined by the Dunsmuir. The first 25 miles from Victoria, the road is built through a rough country, and an elevation of nearly 1,000 feet is attained. There are several high tressels and a tunnel on this section. Lake, River, Valley, and Mountain, furnish an attractive variety of scenery. A number of prosperous settlements are on the line of this road, and several resorts that are much frequented by tourists and sportsmen.

The Albion Iron Works is one of the most important industries of the city. They employ a great number of skilled mechanics, being the largest works of its kind on the Pacific Coast north of San Francisco.

Victoria is a metropolitan city and betrays it to the eye of the least practical observer. Its position is such that it will always be the distributing point for a large amount of territory, and its numerous banking corporations have given it a prestige as a financial centre that the commercial revolutions of the next few years will be powerless to disturb.
